Subtraction Word Problems (Within 1,000)

2nd Grade Word Problems Worksheet

Take away the ones, then the tens, then the hundreds. Trade 1 ten for 10 ones, or 1 hundred for 10 tens, when you need to.

Read each story. Write the answer.

Name: _____ Date: _____

1. Max has 532 beads. Grace has 222 fewer beads than Max. How many beads does Grace have? _____

2. 546 rocks are on a desk. Ethan takes 59 rocks. How many rocks are on the desk now? _____

3. Sofia has 781 blocks. Sofia puts 132 blocks in a bag. How many blocks are not in the bag? _____

4. Jack has 713 shells. 439 of the shells are gray. The rest are brown. How many shells are brown? _____

5. Malik has 444 stickers. Malik gives away 170 stickers. How many stickers does Malik have left? _____
