Subtraction Word Problems (Within 1,000)

2nd Grade Word Problems Worksheet

Take away the ones, then the tens, then the hundreds. Trade 1 ten for 10 ones, or 1 hundred for 10 tens, when you need to.

Read each story. Write the answer.

Name: _____ Date: _____

1. Amir is reading a book with 513 pages. Amir has read 323 pages. How many pages are left? _____

2. 247 seeds are on a table. Ben takes 210 seeds. How many seeds are on the table now? _____

3. Liam has 700 seeds. Layla has 101 fewer seeds than Liam. How many seeds does Layla have? _____

4. Liam has 866 shells. Liam puts 150 shells in a bag. How many shells are not in the bag? _____

5. There are 842 shells in a jar. 621 of them are pink. The rest are gray. How many shells are gray? _____
