Subtraction Word Problems (Within 1,000)

2nd Grade Word Problems Worksheet

Take away the ones, then the tens, then the hundreds. Trade 1 ten for 10 ones, or 1 hundred for 10 tens, when you need to.

Read each story. Write the answer.

Name: _____ Date: _____

1. Omar has 206 beads. Omar gives away 44 beads. How many beads are left? _____

2. 734 stickers are on a table. Tara takes 53 stickers. How many stickers are on the table now? _____

3. Aisha has 884 cards. Aisha puts 613 cards in a box. How many cards are not in the box? _____

4. Anna has 621 rocks. Ethan has 488 fewer rocks than Anna. How many rocks does Ethan have? _____

5. There are 331 marbles in a bag. 96 of them are purple. The rest are green. How many marbles are green? _____
